I would take out the "(UNC)" in the mill title. Do not need it. I shouldn't have written it that way. My bad.

Attached is an updated Figure 1-1. I am starting to like more the blank white background as opposed to the shaded relief for the maps.

Sorry Jason, but have one additional comment.

Can we extend the map a bit to the east to show the entire sub-mining districts of Marquez and Laguna. They are cut off at the eastern edge.

Mark

Mark/Jeff- I went ahead and asked Melody for map Mark referenced in his email and adapted it to our format. We can start here.

Thanks,

Subject: Revision to Figure 1-1 Site Map - Phase 2 Report - SSID A6K6

Jeff,

To address one of the USGS comments, I would like to revise Figure 1-1 Site Location Map. We need to show the Grants Mining District and the location of the SMC Basin within it.

The only GMD figure that we have is one that Melody created. It may be a place to start. I have attached it. We should discuss this week at your convenience.

Mark
